Terrilyn's lifeXpressions

Moment by moment the big picture comes into focus and Terrilyn is there to capture it on film.

Located in Naples, Florida, lifeXpressions is the business behind Terrilyn O'Neil, a professional photographer specializing in children and family imaging. She has earned many prestigious accolades for her photography. Subsequently, her work attracts clients from all over the state. Terrilyn has the passion and skills to see beyond the physical; rather, she strives to reflect the true personality of each individual subject.

The goal of lifeXpressions is to capture unprompted emotions in a child's eyes. As a mother of three children, Terrilyn is quick to spot an impromptu smile, an inquisitive glance or a loving tug on a mother's skirt. She collects precious expressions and mannerisms to build her client's personal lifestyle album.

Pregnancy and the birth of a child are life's high points. Terrilyn provides a unique photojournalistic style of documenting these momentous events. She has the sensitivity and understanding to photograph a pregnant mom-to-be or a sleeping infant in a manner that is comfortable and stress free for everyone.

From birthday parties to family gatherings to imaginative twin portraits, lifeXpressions celebrates a myriad of special occasions and needs. Additionally,

The spirit of a child. A mother's loving touch. The melting pot of personalities that embodies a loving family.

seniors, executives, and model portraits are equally welcome.

Terrilyn comes to you. She works almost exclusively on-location, which means that she will set up her studio wherever you want. She often travels to a beach, a park or even a family outing to generate unique backdrops. On the other hand, home settings have advantages too. Children are more at ease in familiar surroundings which, in turn, triggers spontaneity. All you have to do is relax, let the kids play, and her creative eye will capture amazing candid images of the family.

LifeXpressions also offers clients an online slideshow of their portfolio. The customized photo gallery is a convenient means for sharing images with family and friends across the county. She also provides fabulous gift ideas including cards and custom wall collages.

As Terrilyn puts it, "These works of art are timeless heirlooms for you and future generations to cherish."

Capture time. Celebrate a family member. Life slips by much too quickly.
